CAMPAIGN COMMITTEE MEETING: The Steering Committee of the Philadelphia Coin Machines Division of the 1975 Federation Allied Jewish Appeal-Israel Emergency Fund met recently to discuss this year's campaign. Seated left to right are Ronald Bershad, division chairman; Marvin Stein and Joseph Silverman, members of the steering committee. Standing are steering committee member Lee Weiner (left) and Frank Ash, division co-chairman.

N.Y. State Appeals Court Rules Against Flippers

ALBANY, N.Y. — The New York State Court of Appeals recently reversed a lower court decision that pin games do not fall under the category of gambling devices. This decision thus makes the operation of flipper type pin games illegal in the city of New York.

"The original decision by the lower court," explained Ben Chicofsky, managing director of the Music and Amusement Association, Inc., "was based on a case brought to court by the local distributors. That case involved four pin games. The distributors had won that case, making those games legal in the city."

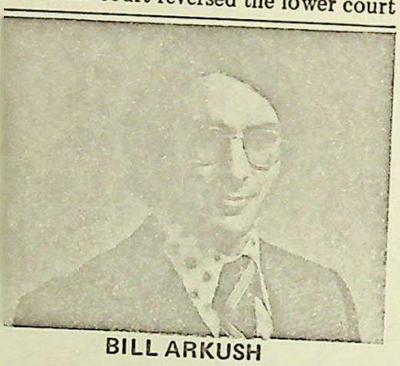
"At that point, the New York City legal departments appealed the decision in the State Court of Appeals," he went on. "This court reversed the lower court decision. Operators were given a specified amount of time to remove the games from location; afterward the games would be confiscated."

Chicofsky added that the distributors attorneys are currently appealing this decision.

Atari Promotes Lipkin To Marketing Vice-President

LOS GATOS, Calif. — Nolan Bushnell, board chairman of Atari, Inc., recently announced that Gene Lipkin has been appointed vice-president of marketing for the firm.

The appointment, which became effective Feb. 1, 1975, includes overall responsibility for marketing, consumer, coin-op sales, service, and advertising. Lipkin had previously been national sales director of Allied Leisure Industries, Inc.



BILL ARKUSH

urz-Kasch, Inc. Appoints rkush As Field Engineer

DAYTON, Ohio — William G. Arkush joined Kurz-Kasch, Inc.'s Electronics vision as the firm's field engineer. kush had previously been associated h Atari, Inc. where he held the ition of design engineer for Color eo Games and Educational Seminar ler for the coin industry.

In relation to the general need for an ustry that is emerging from the tro-mechanical era and entering the puter technology era, Arkush is now ordinating efforts between z-Kasch Electronics Division and the industry," according to Jim Keller, uct manager for Kurz-Kasch.

kush's background includes an E, BS and FCC license as a result of ding the University of California as as Lockheed's microelectronics C. He has developed a process for ighting liquidy crystal displays. His alty field is phosphor deposition of roluminescence.

Greenwald Markets New Coin Time Accumulator

BROOKLYN, N. Y. — Greenwald Industries recently introduced a new coin-operated time accumulator mechanism.

The unit is designed for use in electronic games, vending equipment, coin-op movies, sports lighting, electrical appliance, and coin televisions. The mechanism is front locking so as to allow removal only for service, and reading of the coin counter (optional).

Designated the EX-2020, it is available on contract order. Further information may be obtained by contacting Greenwald Industries, Vending Division, 1340 Metropolitan Avenue, Brooklyn, N.Y. 11237.

Better Games Appoints Four New Distributors

IRVING, Tex. — Better Games manufacturing Inc. has announced the appointments of several new distributors.

The new distributors are State Music, Dallas, Tex.; J.C. Roby Distributing Co., Owensboro, Ky.; F.A.B. Distributing Co., Pensacola, Fla.; and Jay Hawk Distributor Co., Wichita, Kan.

The company also indicated that since the introduction of its Hustler coin operated soccer table at the S.C.C.O.A. convention last January, it has added an additional 5,000 square feet to its facilities here.

f you have all the answers, ow come there are other perators in town? Maybe ddlerama has something.

Some people listen, some don't.
You owe it to yourself
to listen to Kiddlerama.

(54)意匠に係る物品　ゲーム機

(55)説明

この意匠に係る物品「ゲーム機」は、中央に立設されたルーレット部とそのルーレット部の前後に設けられた10箇所のコインベット部兼コイン払戻部とを備えている。そのルーレット部は、中央のボール落下部、1から25までの数字が適当に配列されかつ水平軸回りに回転駆動可能に構成されたボール格納部、そのボール格納部を保持するケース部、そのケース部の外周に設けられた上端の前後に各々ボール排出口を有する電飾部とから構成されている。前記ボール落下部はボールが通過できる程度の間隔をあけた2枚の透明板から構成され、その透明板の間には複数のボール方向転換用ピン及び左右一対のボール方向転換用風車が設けられており、前記ボール格納部には内周側面に前記1から25までの数字に対応して25個のボール格納穴が均等に凹設されており、前記ケース部にはボールを上方に打ち上げる打出し機構と上端までボールを導くガイド機構とが左右両側に各々設けられている。また、前記コインベット部兼コイン払戻部の上面にはテレビ画面とコイン払戻口とが設けられている。ゲームがスタートすると、前記ボール格納部が回転を開始し、前記ケース部に設けられている打出し機構によつてボールが上方に打ち上げられ、そのボールが前記電飾部上端に設けられているボール排出口からボール落下部に排出され、回転しているボール格納部におけるいずれかのボール格納穴に格納されるように構成されており、その動作を一定回数繰返すことによつてゲームが進行するように構成されている。本物品は、ゲーム開始前に、前記テレビ画面に1から25までの数字が任意に配列されたビンゴゲーム表が表示され、一定枚数のコインをベットしてゲームに参加し、前記動作によつて一定個数のボールがボール格納穴に次々と格納されて行き、そのボールの入つたボール格納穴に対応する数字の組合わせが前記ビンゴゲーム表における縦、横、斜めのいずれかで揃えば、予め決められているコインがコイン払戻口から払戻されるものである。透明部分及び透光性を有する部分を示す参考正面図及び同左側面図における右上がりのハツチング部分は透明部分であり、左上がりのハツチング部分は透光性を有する部分である。本物品の大きさは、正面図において全幅3650mmである。背面図は正面図と、右側面図は左側面図と同一にあらわれる。
